

Network-Communication

Networking is acting together

Marian Hoffmann, Frank Passon Universität Rostock

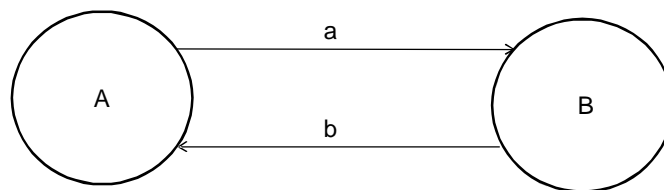

Central Questions

- 1. How is it possible to create networks?**
- 2. What is the role of communication during the process?**

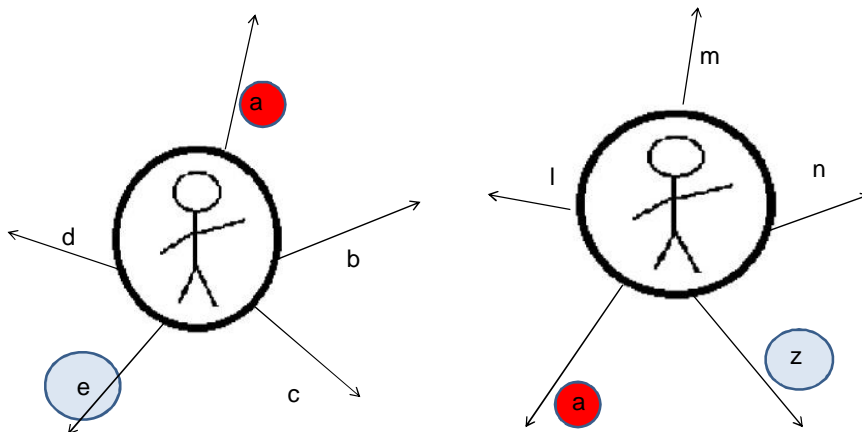

Marian Hoffmann, Frank Passon Universität Rostock

Definition Network

Network is a model of entity on the base of nodes and edges. (Jürgen Perl)

Food for local restaurants

1) ...It is very simple. We produce meat products and try to sell them for a good price. That's it. (LAUGHING)

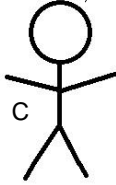

A

2) (LAUGHING) ok, that sounds good. We are interested in guests come to our restaurant because they like the food and it is affordable for them.

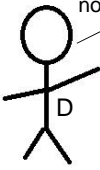

B

3) Be aware, the meat must be delivered first to your place (LAUGHING) and that's not so easy.

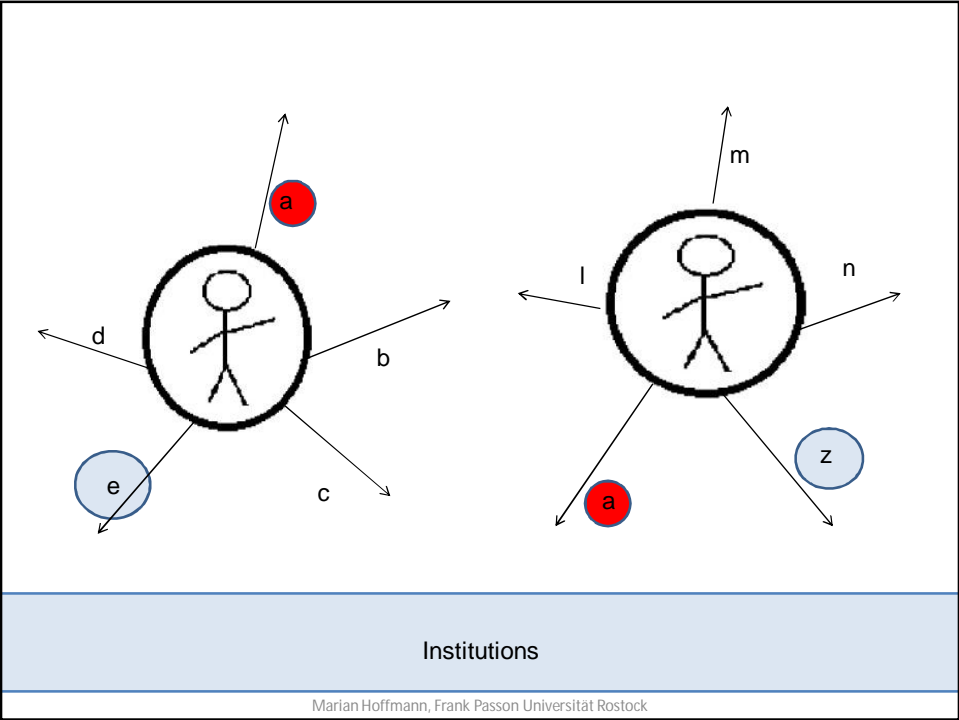

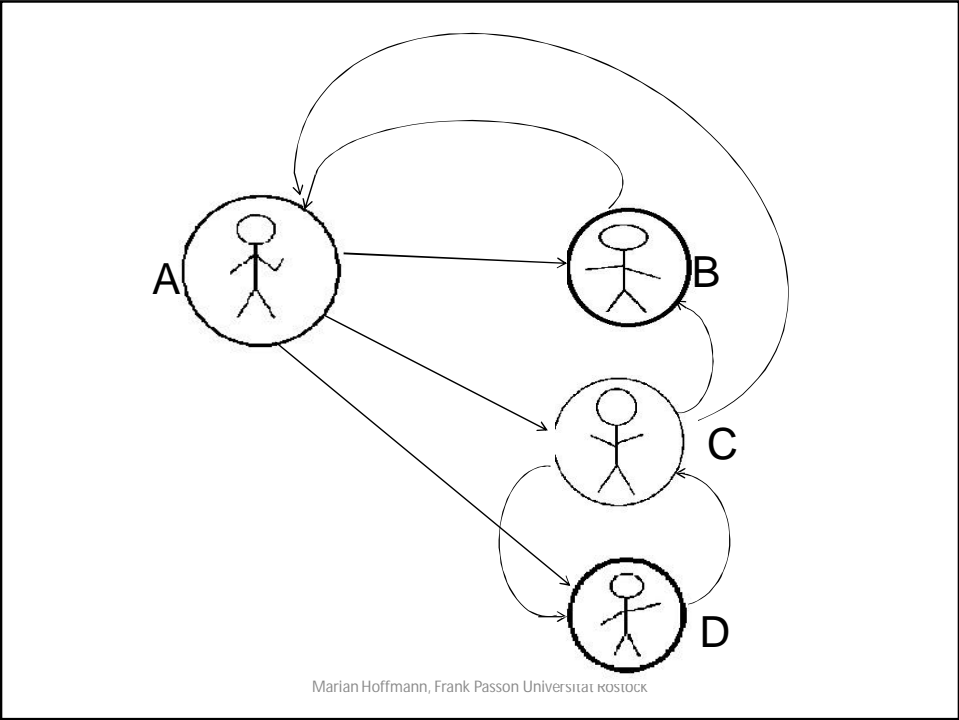

C

4) Oh, come on not again.

D
